

Air Photo Coverage for Oregon Cities

Notes:

- Generally, projects described in this document offer **complete coverage** within the city limits. Many other projects, that are not listed, offer partial coverage: please inquire for details.
- This is not an exhaustive list of our collection.
- Willamette Valley Project (WVP) scale varies slightly.
- 4M / 5M imagery, dating from 1944 and 1945 respectively, was produced as part of one larger project, the Oregon River Survey. Scale varies between the two projects.
- We are now providing 1994 aerial imagery for the entire state of Oregon. All the entries below with a 1994 year indicates we have the print only. Those without, will be from the digital orthophoto quadrangle.

Adair Village
