Projects

- **Project Manager**. (2019 @ Wenzhou-Kean University). *Wenzhou-Kean University Intellectual Research Environment (WIRE)*. Development of the digital Institutional Repository and Data Repository of the University based on DSpace-CRIS framework, aiming to collect, preserve, and provide online access to the research output of the University to the world, and through this, maximize the research visibility, usage, and impact of WKU researchers' works.

- **Co-Investigator**. (2016 @ Texas Tech University). *Sharing and Helping Academics Prepare for Education Success (SHAPES)*. Development of the first interlibrary loan protocol and platform for 3D models and 3D objects. The database allows member institutions to create, discover, request, upload, and deliver 3D models for instruction and research purpose. The project is funded by TSLAC for development and pilot implementation.

- **Project Manager**. (2015 @ Texas Tech University). *Streaming Audio & Video Experience (SAVE)*. Invention of the first submission and publishing solution system for music-related electronic theses and dissertations (ETD) and copyrighted multimedia collections. SAVE includes an authenticated streaming multimedia player, a responsive-design user interface, and a web-based submission and management system. SAVE is in current use for digital curation of ETD recitals and faculty recitals. The project team won Trailblazer Award of Texas Digital Library.
