

Oregon Department of Transportation (ODOT) City Series 1960-Present

The paper maps are in Maps Rare Series, a locked storage area. Contact map@uoregon.edu or 541-346-3051 to use these maps. Maps on microfilm are in Maps microfilm (red microfilm cabinet) on the uncataloged ODOT reels 41 – 43.

These series show Federal Functional Classification of roads (the schema which groups roads into functional systems according to the type of service and amount of traffic it carries.) Functional Classification is used to determine design standards of roads and determines Federal Aid funding eligibility.

The most recent versions are available as PDFs at [ODOT's online map library](#).
